Weapons and Fighting

2007 Arlington Youth Risk Behavior Survey

Risk Behavior Related to Weapons and Fighting	All	By Grade				By Gender	
		6th	8th	10th	12th	Female	Male
<i>Weapons</i>							
Carried a weapon, past 30 days	15%	12%	14%	18%	15%	7%	22%
Carried a gun, past 30 days	6%	na	6%	8%	4%	1%	10%
Carried a weapon to school, past 30 days	8%	na	5%	10%	8%	4%	11%
<i>Fighting</i>							
In a physical fight, past 12 months	28%	30%	34%	28%	20%	17%	38%
Injured in a physical fight, past 12 months	6%	na	7%	8%	4%	3%	9%
In a physical fight at school, past 12 months	14%	na	18%	14%	8%	6%	20%

Note: Sixth grade students complete a shorter version of the YRBS so some table entries say "na" for not available. In those cases, the values for male, female and all students are based just on results for students in grades eight, ten and twelve. This should be kept in mind when comparing with statistics based on results for all four grades.

Technical Note:

Reworked "tried to quit" by first limiting to current smokers and using the number of "yes" responses as N and number of current smokers in line 10 as D

Youth who said they were current smokers in Q40 but said they did not smoke in Q43 were removed from the denominator, *consistent with CDC guidance?*

Offered or sold drugs at school	13%	3%	7%	22%	22%	11%	15%

Note: Sixth grade students complete a shorter version of the YRBS so some table entries say "na" for not available. In those cases, the values for male, female and all students are based just on results for students in grades eight, ten and twelve. This should be kept in mind when comparing with statistics based on results for all four grades.

Any unhealthy method of weight loss	13%	13%	11%	15%	12%	14%	12%

Note: Sixth grade students complete a shorter version of the YRBS so some table entries say "na" for not available. In those cases, the values for male, female and all students are based just on results for students in grades eight, ten and twelve. This should be kept in mind when comparing with statistics based on results for all four grades.

Technical Note:

I re-analyzed "Exercised 20+ minutes in PE" following CDC guidelines to remove any student from D who said "Not in PE"

So the D is not equal to the number saying they are currently in PE class

Note: students in health and PE may be a little confused!

2. Re-analyzed screen time calculations

These were incorrect as submitted by Camp LLC

Plays video or computer games for 2 hours or less per school day	78%	87%	76%	73%	74%	82%	74%
Two hours or less of "screen time" per school day	43%	59%	36%	38%	37%	49%	38%
<i>PE Class Attendance</i>							
Enrolled in a P.E. class	66%	na	94%	90%	13%	65%	66%
Attended P.E. daily	41%	na	76%	43%	5%	41%	41%
<i>Percent of young people enrolled in PE class**</i>							
Exercised 20 minutes or more in PE class	74%	na	78%	72%	61%	71%	77%

Note: Sixth grade students complete a shorter version of the YRBS so some table entries say "na" for not available. In those cases, the values for male, female and all students are based just on results for students in grades eight, ten and twelve. This should be kept in mind when comparing with statistics based on results for all four grades.
